DOCUMENT RESUME

ED 252 808 CG 018 044

AUTHOR	Watjen, L. Russell, Comp.; And Others
TITLE	Microcomputer Software for Counseling and Student Development.
INSTITUTION	ERIC Clearinghouse on Counseling and Personnel Services, Ann Arbor, Mich.
SPONS AGENCY	National Inst. of Education (ED), Washington, DC.
PUB DATE	84
CONTRACT	400-83-0014
NOTE	149p.
AVAILABLE FROM	ERIC/CAPS, 2108 School of Education, University of Michigan, Ann Arbor, MI 48109-1259.
PUB TYPE	Information Analyses - ERIC Information Analysis Products (071) -- Reference Materials - Bibliographies (131)
EDRS PRICE	MF01/PC06 Plus Postage.
DESCRIPTORS	Administration; Athletics; Career Development; Catalogs; *Computer Oriented Programs; *Computer Software; *Counseling; Databases; Elementary Secondary Education; Extracurricular Activities; Health Services; Higher Education; Microcomputers; Statistics; *Student Development; Student Financial Aid; *Student Personnel Services; Testing
IDENTIFIERS	Computer Assisted Counseling; Computer Assisted Guidance

ABSTRACT

This catalog provides information on software for counselors and student services personnel, arranged according to counseling and student development topics. The areas covered by the catalog include administrative aids, athletics, career development, counseling, financial aid, health services, statistical programs, student activities, and testing. There are also sections on databases, electronic mail, software available in the public domain, publications for computer users, and software directories. Software programs are listed alphabetically by title under the appropriate heading, and include a description and information on system requirements (hardware, operating system), price, and publisher. The catalog also contains a Software Review Form (for listed programs) and a Software Submission Form (for suggested additions). (JAC)

ACKNOWLEDGEMENTS

Many people have worked hard to make this document a reality. Special recognition is due to Cynthia Johnson and Richard Pyle, who fostered and promoted the concept of a software catalog, and to James Blakly, who compiled and edited the first edition. Sponsored by the Ontario College counselors, it was entitled, "Software and Resource Catalog", and was published in March 1983.

The response to the first catalog was extremely positive, both in the number of copies requested by interested professionals, and in the number of software descriptions contributed by counselors using computers. As a result, the Student Development Software Clearinghouse grew into a formal non-profit project sponsored by Commission I of the American College Personnel Association and the W.K. Kellogg Foundation's Project LEARN. ACPA Commission I assumed responsibility for developing the next edition of the catalog and assigned the project to the Task Force on Microcomputer Applications to Student Development. Russ Watjen headed the project, with James Blakly again a major contributor. Michele Stevens also deserves special recognition for her assistance in publicizing and promoting the software clearinghouse.

As the amount of information grew, it became obvious that a comprehensive system was needed to manage the data and to provide a means for continual updating. Martha Watjen, who has a background in both systems analysis and student development, developed this system using dBase II. The data were entered by students at Western Connecticut State University, supervised by Alice Fernandes.

Maintaining such a database and periodically publishing updated versions, however, are major tasks that cannot easily be handled strictly on a volunteer basis. Therefore, ACPA Commission I and Project LEARN have established an ongoing collaboration with the ERIC Clearinghouse on Counseling and Personnel Services to continue the project. The final organization, editing, and publication of the current document was performed by the staff of the ERIC Clearinghouse on Counseling and Personnel Services, to which Mary C. Frenza, Assistant Director, made a significant contribution.

Even with the massive efforts put forth in compiling the information and publishing this catalog, the substance of the catalog derives from the contributions of practicing counselors and student development specialists. Therefore, we want to express our particular appreciation to those who have been willing to take the time to share the software resources they have found to be useful in their own counseling settings.

We are pleased with the opportunity to assist in the production of this catalog and excited about the opportunity for future collaboration with ACPA Commission I in the planning and development of our expanded version. Your comments and suggestions about this catalog and what you would like to see in future editions would be most welcome. Please share your reactions and ideas with us.

Jeanne Bleuer
Garry R. Walz

USING THIS CATALOG

This catalog is arranged according to counseling and student development topics; e.g., administrative aids, career development, health services. Software programs are listed alphabetically by title under the appropriate topic and include the following information: description, system requirements (hardware, operating system), price and publisher. Because of space considerations, each program appears only once; future editions of the catalog may be cross-referenced.

All information in the listings is subject to change. New program versions may have been written to run on different machines, or price and availability may have changed. Please check directly with the software publisher to confirm whatever information you need.

In future editions of the catalog, evaluation information may be included for particular programs, as well as additional listings that may have been omitted at this time. To help with this task, catalog users are asked to copy and complete two forms at the back of this volume: Software Review Form (for programs listed here) and Software Submission Form (for suggested additions). Other comments and feedback are also appreciated. Please return the forms to:

Russell Watjen, Ph.D.
Dean of Student Affairs
Western Connecticut State University
Danbury, CT 06810

STATE OF THE ART IN COUNSELING AND STUDENT DEVELOPMENT SOFTWARE

Garry R. Walz and Jeanne Bleuer

We have been very impressed by the prodigious effort that has gone into the initial development of this catalog and see it as a significant contribution to the facilitation of greater utilization of computers and technology in counseling and student development. Such a document as this not only meets our immediate needs of finding an appropriate piece of software for a given task, but provides a window on the larger questions of where we have been and where we are going in terms of future developments. We are able to select, as a gourmet might, the entrees which would most satisfy us for the present, as well as to conjure up what we would like our chefs to be thinking about and preparing for us for the future.

As we reviewed and analyzed the software base, our reactions and conclusions were developed more as an additive synthesis than a systematic and actuarial accounting. We are interested more in the artist's broad brush strokes than the minute details of the fine touch-up to the finished canvas, and our goal is more to encourage discussion and reflection on the thoughts and images we suggest than to provide definitive and factual conclusions. Hopefully, our thoughts will not only provide some meaningful generalizations about what we have achieved so far, but also encourage compelling images of what we can and should do for the future.

Our first observation is the extent to which we appear to rely on general purpose software in the field of counseling and student development. Clearly, the largest amount of software available to us would fall into the general areas of wordprocessing, spreadsheets, and database management. This predilection for a generic use and development of software has advantages and disadvantages. General purpose software provides more assistance in the management of counsel-

ing and student development than it does in the delivery of services. Thus, it may implicitly suggest that computers are to be used more as supportive administrative tools than for direct assistance in counseling. On the other hand, if it is, in fact, a time-saving administrative tool, it has the potential to minimize the inevitable conflicts regarding time and priorities. How many of us wouldn't like to have more time, away from the desk and our administrative and management tasks, to spend in direct and meaningful interaction with students? It also needs to be emphasized that general purpose software is available at several levels of sophistication for almost all types of computers and is extremely cost-effective because it can be used for many different applications. Even though some special purpose software programs appear to be less expensive, their use, in the long run, may be more costly because of the need to purchase a separate program disk for each task. Learning to use general purpose software is not a difficult task and does not require programming expertise. The creative user can capitalize on the flexibility of general purpose software and develop administrative tools that are highly customized for a specific setting. Improvement in the management phase of counseling and student development is one area that almost all people in the helping services can profit by, and the judicious use of general purpose software can be a most valuable contribution to this area.

The use of students to write computer programs for specific student development applications is a clear trend. Because students are well-versed in computer programming and filled with zest and interest in applying their skills to student development, the student-designed software is frequently appealing because of its freshness and appropriateness for specific student development needs. On the less positive side, it is often ignored after its original development, and it becomes very hard to maintain and update the software after a student author has left or moved on to other interests. Documentation of the software clearly appears to be of

prime importance with reference to student programs. At the minimum, we need to systematically collect data relative to the use and outcomes of the program and to provide comprehensive and accurately updated manuals about how the specific software should be used.

There appears to be an increasing emphasis on the distinction between commercially developed software and that which is done as part of a project or an ongoing internal program activity. This may be due to a distrust of commercial profit motives, but the feeling may be ill-founded and inappropriate given that commerical developers are more likely to have the resources and the technical expertise needed to originate quality software and to insure its continuing development and refinement. On the other hand, commercial developers may lack the theoretical grounding necessary to produce good special purpose software for use in counseling and student development. What appears to be ideal is the combination of experienced and knowledgeable counseling and student development persons with commercial programmers to create software which is both professionally sound and technically sophisticated. Good tests need to be both reliable and valid, and the old saying, "You can't have validity without reliability," may apply to the software field as well. Unless the programs work and are free of the operational bugs that can interfere with their successful application, the best ideas and thoughts in the world will go awry. Perhaps one important outcome of this catalog will be the systematic collection of user thoughts about existing software and their preferences for future developments. This information can then be shared with commercial software developers to bring about this best of all marriages: professional knowledge and technical competence.

There is an old adage in testing and measurement that the best tests are the old tests. The thinking behind this is that the utility of tests is determined by the normative data that are available and the collected experiences regarding their

usefulness in a wide variety of situations. Older tests also have a great deal of research associated with them regarding their correlation with other measures and their ability to predict certain events and outcomes. New tests, on the other hand, leave the user almost totally dependent upon the author's claims, often highly exaggerated and illusory. The same situation would seem to apply to the software field. As a given program is used, we learn not only about its technical quality, but also about its success in meeting the needs of a wide range of users, from the counselor or student development specialist to the student or adult client. Systematically collected, these data can be extremely helpful to potential users. In attempting to make decisions about the desirability of one piece of software versus another, most users are clearly looking for what the program offers to specific clients and what kinds of outcomes can reasonably be expected. Information of this sort can be extremely useful in choosing among software alternatives and in deciding how we might best use it. At this point, this catalog does not contain evaluative reviews. Moreover, we must again stress the fact that inclusion of material in this catalog does not constitute an approval or endorsement of the products or services described. In its present form, the database is relatively primitive in that it is simply an organized collection of counselor-nominated software. It is our hope, however, that as people use the various resources identified in this document, they will contribute their experiences, observations, and recommendations as requested in the section, "Using This Catalog" (page 1).

It is becoming increasingly clear that the most successful and satisfied users of computers in counseling and student development are those who are able to make creative applications of the software, frequently going beyond its originally intended use. As poor media can sometimes be turned into effective instructional tools, the utility of software may be a function more of the user's creativity and resourcefulness than of the program's intrinsic quality. We need to strive for

quality software, but we also need to have a parallel emphasis on more imaginative and ingenious uses. Imaginativeness in the use of software can not only make good software more effective, but also lead to the development of more creative and compelling programs in the future. An example of what we are thinking of is the use of fantasy games similar to "Dungeons and Dragons" to promote problem-solving and teamwork among individuals as a response to complex life situations. The interaction between players and the post-game discussion of strategies and behaviors can be most helpful in helping individuals see that the roles they play in the games have parallels in real life. Much can be learned in such gaming situations regarding people's natural inclinations toward strategies, risk-taking and systematic approaches to information-gathering before making decisions. Numerous programs also lend themselves to teamwork, as in the survival games where the response is not that of an individual, but a group consensus.

The largest number of programs in this catalog fall into the category, "Administrative Aids." This tends to be a catch-all but, as emphasized previously, does give major focus to the management phase of counseling and student development. Interestingly, the predominance of programs in this area suggests that they are more readily developed than programs designed for direct student or client use, which is probably true. On the other hand, it may also suggest that we, as professionals committed to the personal factor in counseling and student development activities, are more convinced of the suitability of computer-managed counseling than of computer-assisted counseling. For further clarification on this distinction, see Bleuer and Walz, "Counselors and Computers," an ERIC/CAPS Fact Sheet (free on request).

The second-largest category is career development and placement. The rapid development of materials in this area and the abundance of information about occupations and educational opportunities may help to account for its strong

emphasis. Perhaps one of the fastest growing types of software is the interactive program for student users that covers the gamut from values and life styles to learning and study skills. As part of an overall program of computer enhanced counseling and student development, these topic-focused software programs have a great deal of potential. When appropriately interwoven into the larger program of assistance to students, they may result in major increases in our ability to help students with planning and decision making.

In summation, it seems that as a result of our review of the software, we have identified several imperatives. First, we need to systematically collect data about who has used what program, for what purpose, and with what results. Related to that, we need to know what aspects the user was pleased with and what problems the user encountered. Secondly, we need to become not only a collection source, but a source for greater creativity and imaginaton in the use of computers and software. Some of the truly significant uses of computers in counseling and student development will clearly be in the interface between different types of technology and in the creative uses of software programs. Teaming, group problem solving, the creation of learning climates, and user-designed programs are just some of the promising areas for this sort of use. They are more likely to come about with increased sharing of specific information about people's innovative and novel uses of software.

Third, we need to pinpoint areas where counseling and student development software needs to be developed, particularly of the interactive variety. Having identified the areas that have high priority, we can then encourage their development both by individual entrepreneurs and by commercial concerns. Competition and duplication in this broad arena has clearly led to improved software. We need to bring as much zesty interaction and competition between developers in this field as possible. Multiple sources of development may be the best real way to under-

write quality assurance in software program development. Lastly, we feel that one of the most meaningful contributions this catalog can make is to convey a sense of excitement to potential users about both the quantity and the quality of available software and also the need for all counselors and student personnel to become more actively involved. The resources are there. The challenge for us is not only to use it, but to use it in more ingenious and creative ways.

ADMINISTRATIVE AIDS

TITLE: 1-2-3

One of the first integrated software packages, this program incorporates aspects of several types of general purpose software programs. It is primarily a financial modeling system.

System Requirements:
All 16 bit MS-DOS machines

Publisher:
Mr. Roger Towey
255 West 98th Street
New York, NY 10025

Price Information:
Contact publisher for price information.

TITLE: ADDRESS BOOK

Stores names, addresses and telephone numbers on disk and accesses them for viewing, label printing or automatic telephone dialing when used with a modem. Stores up to 700 records per disk.

System Requirements:
Apple II Plus with 48K and one disk drive; printer and modem optional

Publisher:
News Software
330 North Charles Street
Baltimore, MD 21201

Price Information:
Contact publisher for price information.

TITLE: ADDRESSES

Stores names, addresses, and phone numbers, then makes printouts as needed.

System Requirements:
Apple II series

Publisher:
Educational Computing Network
12680 Hollyglen
Riverside, CA 92503

Price Information:
Send $10.00 to cover the cost of disk and shipping. The program is free.

ADMINISTRATIVE AIDS

TITLE: ADMINISTRATIVE PLANNING SYSTEM (APS)

Maintains administrative records on 10,000+ students. Automatically updates from highly detailed TPS student records. Student tracking and administrative reports printed in flexible format. UCSD-PASCAL system.

System Requirements:
TRS-80 Model II with 64K and two disk drives

Publisher:
Learning Tools, Inc.
Software Sales
686 Massachusetts Avenue
Cambridge, MA 02139

Price Information:
Disk $700.00

TITLE: AGENDA

An automated calendar and expense system. Lists appointments day by day and their expected duration. Keeps track of planned time scheduled for a particular day. Memos can be entered as reminders for a particular day.

System Requirements:
IBM PC with 64K

Publisher:
TCI Software
Mr. Rob Davidson
6107 West Mill Road
Flourtown, PA 19031

Price Information:
$65.00

TITLE: APPOINTMENT CALENDAR

Computerized diary for office or home. Makes up to 20 exact-time appointments for every day of the year (with printouts). Displays monthly calendar and highlights important events such as holidays and birthdays.

System Requirements:
TRS-80 Model I, Level 2, with 16K, or Model III, with 16K

Publisher:
International Computer Product
346 North Western Avenue
Los Angeles, CA 90004

Price Information:
Cassette $19.95, disk $29.95

ADMINISTRATIVE AIDS

TITLE: APPOINTMENTS

A scheduling program.

System Requirements:
Apple II series with 48K

Publisher:
Andent, Inc.
1000 North Avenue
Waukegan, IL 60085

Price Information:
$24.95

TITLE: AUTOMATED ACCOUNTING FOR COLLEGES

Covers general ledger, depreciation, accounts payable and receivable, and payroll procedures. Most systems are integrated, leaving detail work to the computer. Students concentrate on theory. Requires some knowledge of manual accounting procedures.

System Requirements:
TRS-80 Model I, Level 2, BASIC, with 32K, and one disk drive

Publisher:
Southwestern Publishing Co.
5101 Madison Road
Cincinnati, OH 45227

Price Information:
Contact publisher for price information.

TITLE: BUDGET

Handles up to 15 user-defined categories. The user enters individual expense items and the program calculates, prints, and graphs monthly totals by category.

System Requirements:
TRS-80 Color Computer with 16K and color, BASIC

Publisher:
J. B. Hirsh
225 Duke Ellington Boulevard, 14A
New York, NY 10025

Price Information:
Cassette $49.00

ADMINISTRATIVE AIDS

TITLE: BUDGET

A tool for the theatrical business manager or department head to record and categorize income and expenses. Classifications are available by series, events, and performances, with totals and printed reports.

System Requirements:
CP/M, Apple II series, IBM PC, Xerox 820 with CP/M, Zenith Z-90 with CP/M, two disk drives and printer

Publisher:
Rosco
36 Bush Avenue
Port Chester, NY 10573

Price Information:
Disk $150.00, manual $25.00

TITLE: BUSINESS PACKAGE PROGRAM

Thirteen business programs including ratio analysis, sources and uses, cash balance, accounts receivable evaluation, economic order quantity, leverage, cost of capital, IRR and NVP, depreciation schedule, optimal life, capital budgeting, sensitivity analysis and risk adjusted discount rate.

System Requirements:
TRS-80 Models I or III, with minimum 32K and one disk drive

Publisher:
Management Systems Software, Inc.
5200 Brittany Drive, #1006
St. Petersburg, FL 33715

Price Information:
$200.00

TITLE: CALENDAR

Enables user to keep track of appointments and to schedule engagements. An all purpose date book.

System Requirements:
Commodore

Publisher:
Commodore Business Machines
Software Division
1200 Wilson Drive
King of Prussia, PA 19380

Price Information:
$29.95

ADMINISTRATIVE AIDS

TITLE: CALENDAR

Allows up to four schedules of personnel or facilities. All four can be displayed simultaneously, thus alerting the user to possible conflicts.

System Requirements:
CP/M, Apple II series, IBM PC, Xerox 820 with CP/M, Zenith Z-90 with CP/M and two disk drives; printer optional

Publisher:
Rosco
36 Bush Avenue
Port Chester, NY 10573

Price Information:
Disk $150.00, manual $25.00

TITLE: CALENDAR MANAGEMENT SYSTEM

Can be used to manage 98 people or facilities. Can also be used to schedule the time of conference rooms, machines or other facilities. Also useful for scheduling group meetings of up to ten people after finding a commonly available time in the schedule of each.

System Requirements:
Any CP/M based system

Publishers:
Peachtree Software Inc.
Ms. Joan Jackson
3445 Peachtree Road, NE
Atlanta, GA 30326

Price Information:
Contact publisher for price information.

ADMINISTRATIVE AIDS

TITLE: CASA INVENTORY

Tracks fixed assets and inventory providing an audit trail. The disk version handles up to 1000 fixed assets per disk with 3500 fixed asset transactions per period. Four hundred supply items are handled per disk and 2900 supply transactions are handled per period.

System Requirements:

IBM PC with two disk drives, or one disk drive and a 20 megabyte hard disk; 132 column printer. Specific hardware configuration information available from company.

Publisher:

Computer Training and Software (CTRS)
2103 34th Street
Lubbock, TX 79411

Price Information:

$395.00

TITLE: CLASS SCHEDULING SYSTEM

Prepares all input forms, reports expected class conflicts, and prepares final master school rosters and individual student schedules. It will handle up to 2400 records with up to 1000 courses and up to 16 choices and alternatives per student.

System Requirements:

Apple II series with 48 K

Publisher:

Charles Mann and Associates
Micro Software Division
7594 San Remo Trail
Yucca, CA 92284

Price Information:

$249.95

ADMINISTRATIVE AIDS

TITLE: CLIENT LIST

Provides for correlating up to 300 names, addresses and telephone numbers with subject designators and geographic areas. May be stored by subject, location or zip code.

System Requirements:
Apple II series; printer optional

Publisher:
Navic Business Program
P.O. Box 14727
North Palm Beach, FL 33408

Price Information:
$19.95

TITLE: COLLEGE ENROLLMENT PROJECTION

Forecasts college enrollments for five years in advance, based on enrollments and population for the past seven years.

System Requirements:
TRS-80 Models I and III with 32K and two disk drives, Model III, Level 2, BASIC. Available for Model II at $50.00 more than for Models I and III.

Publisher:
Management Systems Software, Inc.
5200 Brittany Drive, #1006
St. Petersburg, FL 33715

Price Information:
$100.00

ADMINISTRATIVE AIDS

TITLE: COMPREHENSIVE UNDERGRADUATE ENROLLMENT PLANNING PROGRAM

CUEPP is a service of the College Board. It is valuable to admissions officers trying to determine where to focus recruitment efforts. CUEPP provides information on institutional visibility and admissions markets, based on choices made by students taking the SAT and having their scores sent to colleges.

System Requirements:
IBM PC

Publisher:
Office of Data and Special Services
The College Board
888 Seventh Avenue
New York, NY 10106

Price Information:
Contact publisher for price information.

TITLE: COMPUTER PHOTO ALBUM

Transfers photographs to disk.

System Requirements:
Apple II and III series

Publisher:
Management Consultants
Mr. Joel Isadore
307 South 13th Street
Philadelphia, PA 17107

Price Information:
Contact publisher for price information.

TITLE: DAILY REMINDER

Tickler file system.

System Requirements:
TRS-80, Sanyo PC

Publisher:
International Computer Products
Mr. Axel Beyreuther
346 North Western Avenue
Los Angeles, CA 90004

Price Information:
Contact publisher for price information.

ADMINISTRATIVE AIDS

TITLE: DAILY REMINDER AND APPOINTMENT CALENDAR

Computerized notebook for home or office use. User can keep notes or appointments for every day of the year, up to 16 appointments per day. Monthly calendar highlights important days. Instant access and update, with printout.

System Requirements:
TRS-80 Model II with 64K and one disk drive

Publisher:
International Computer Products
346 North Western Avenue
Los Angeles, CA 90004

Price Information:
$49.95

TITLE: DBASE II

A flexible assembly language relational database management system. Useful for maintaining data of all types.

System Requirements:
CP/M and MS-DOS. Contact publisher for additional hardware information.

Publisher:
Ashton-Tate
10150 West Jefferson Boulevard
Culver City, CA 90230

Price Information:
$400.00 range

TITLE: DECADE

College financial planning model. The user is allowed to set face values which are projected over a ten-year period. Factors such as tuition, admissions standards, and faculty appointments can be varied.

System Requirements:
Contact publisher for hardware information.

Publisher:
Mr. James A. Warden
Cragwall Computer Center
Wabash College
Crawfordsville, IN 47933

Price Information:
Contact publisher for price information.

ADMINISTRATIVE AIDS

TITLE: DECISION

Guides decisions by responses to a series of questions. Helps to quantify knowledge and feelings about the decision to be made, e.g., whom to hire, where to locate.

System Requirements:
IBM PC, Apple II

Publisher:
Savant Software, Inc.
Mr. Cliff Creel
P.O. Box 42888, Suite 164
Houston, TX 77042

Price Information:
$29.00

TITLE: DECISION MAKING MATRIX

Allows the user to input all options involved in a decision and rate each option before making a final decision. Allows user to simulate outcomes of various decisions.

System Requirements:
Contact publisher for hardware information.

Publisher:
Metamorphics, Inc.
154 Montgomery Avenue
Bala Cynwyd, PA 19004

Price Information:
$45.00; manual only, $10.00

TITLE: DONATION MANAGEMENT SYSTEM

Handles donation revenue control, pledge tracking, and mailing list maintenance. Gives organizations capabilities for control of solicitations, fund raising campaigns, and revenue accounting.

System Requirements:
PICK operating system

Publisher:
KTS Business Systems, Inc.
124 Merton Street, 3rd Floor
Toronto, Ontario, Canada M4S 2Z2

Price Information:
Contact publisher for price information.

ADMINISTRATIVE AIDS

TITLE: EQUIP

School equipment inventory system. Records include description, model, serial number, cost and location. Reports can be prepared by room location, academic subject, equipment type and/or manufacturer. Can store up to 1200 items per disk.

System Requirements:
Apple II

Publisher:
Addison Wesley Publishing Co.
Jacob Way
Reading, MA 01867

Price Information:
$195.00, manual 10.00

TITLE: FANCY FONT

A text formatter for enhanced printing with an Epson printer. Provides high quality, fancy printing.

System Requirements:
CP/M, Apple II series with CP/M, Kaypro with CP/M,
Epson QX-10, Osborne, IBM PC

Publisher:
Softcraft
8726 South Sepulveda Boulevard, Suite 1641
Los Angeles, CA 90045

Price Information:
$180.00

TITLE: FOOD SERVICE AND VENDING MACHINE MANAGERS

Controls school food service and vending machine operations. Field tested; custom installation and training.

System Requirements:
TRS-80 Models II, III, 12, and 16, with 64K and one disk drive

Publisher:
Educational Media Associates
c/o Compu-Vend Division
342 West Robert E. Lee
New Orleans, LA 70124

Price Information:
Contact publisher for price information.

ADMINISTRATIVE AIDS

TITLE: FOODSERVICE MANAGER

Provides per portion serving costs on all ingredients used in each recipe, and recipe portion costs. Converts menus into purchase quantities of food products that need to be ordered. Highlights food products that are fluctuating widely in price. Alerts managers to problems related to over portioning, improper cooking, improper purchasing, etc.

System Requirements:
IBM PC with two disk drives and a 132 column printer

Publisher:
Houk & Soles Food Service Management
102 South Main
Scottville, MI 49454

Price Information:
$2000.00

TITLE: FRAMEWORK

An "idea processor" which allows the user to organize ideas and/or data in a flexible electronic form.

System Requirements:
Contact publisher for hardware information.

Publisher:
Ashton-Tate
10150 West Jefferson Boulevard
Culver City, CA 90230

Price Information:
Contact publisher for price information.

TITLE: GRADUATION ROLL

Recordkeeping device for graduation candidates. Includes name and diploma description for 250 students; edit, search, and printer functions. User manual included.

System Requirements:
TRS-80 Model III, with 48K, two disk drives and printer

Publisher:
Micro III Educational Systems
704 West Pine Street
Fitzgerald, GA 31750

Price Information:
$90.00

ADMINISTRATIVE AIDS

TITLE: HMRS STUDENT RECORDS SYSTEM (26-2521)

Records student activity scores from high motivation reading series programs. Requires micropilot.

System Requirements:
TRS-80 Model III with 48K and one disk drive, BASIC;
printer optional

Publisher:
Radio Shack Education Division
National Bid Department
1400 One Tandy Center
Fort Worth, TX 76102

Price Information:
$29.95

TITLE: INVENTORY

Multi-purpose program designed to keep track of catalogs, A-V materials, etc.

System Requirements:
Apple II series

Publisher:
Educational Computing Network
12680 Hollyglen
Riverside, CA 92503

Price Information:
Send $10.00 to cover cost of disk and shipping. Program is free.

TITLE: MEMOREASE PLUS

Designed to improve recall by using pinciples drawn from educational psychology. Equipped with a flash card quiz mode allowing it to be used in numerous applications.

Publisher:
Software Research Corporation
P.O. Box 1700
Discovery Park, University of Victoria
Victoria, British Columbia, Canada V8W 2Y2

Price Information:
$1400.00

FINANCIAL AID

TITLE: SWORK-82

College student payroll system.

System Requirements:
CP/M

Publisher:
Software Creations
Mr. Ron Parker
10720 S. Hoover
Los Angeles, CA 90044

Price Information:
Contact publisher for price information.

HEALTH SERVICES

TITLE: COMPUTE-A-LIFE

After completing the questions on the screen, users receive their results immediately. Life expectancy, major risk factors, health, age, and recommended lifestyle change are included in the results printout.

System Requirements:
IBM PC with 64K and a printer

Publisher:
The Institute for Lifestyle Improvement
Detzell Hall
The University of Wisconsin - Stevens Point
Stevens Point, WI 54481

Price Information:
Contact publisher for price information.

TITLE: COMPUTE-A-LIFE II

Allows the health professional to give a health risk appraisal to an individual or a group in questionnaire form using a machine scored answer sheet. Results are available immediately, and may be interpreted to the client at the same session.

System Requirements:
IBM PC with 64K and a printer

Publisher:
The Institute for Lifestyle Improvement
Delzell Hall
University of Wisconsin - Stevens Point
Stevens Point, WI 54481

Price Information:
Contact publisher for price information.

TITLE: CONSUMER DRUG WATCHER

Educational programs for the informative use of 550 medications. Drug information programs, and drug testing program that tests specific medications for potential drug interactions.

System Requirements:
Apple series with 48K minimum

Publisher:
Medical Watch Software
1620 Enstenada
Modesto, CA 95355

Price Information:
$39.95

HEALTH SERVICES

TITLE: CONSUMER'S GUIDE TO PRESCRIPTION & NON PRESCRIPTION DRUGS

Describes the active ingredients, methods of use, and effects of various over-the-counter prescriptions and generic substitutes.

System Requirements:
IBM PC

Publisher:
Intellectual Software
798 North Avenue
Bridgeport, CT 06606

Price Information:
$49.95

TITLE: DIET

Determines the user's basal metabolism from input data and responds with a printout of daily caloric needs. The user adjusts eating and exercising patterns to fit the program.

System Requirements:
Apple series with 48K and one disk drive; printer optional

Publisher:
Metamorphics, Inc.
154 Montgomery Avenue
Bala Cynwyd, PA 19004

Price Information:
$25.00; manual only, $10.00

TITLE: DRUG INTERACTION UNLIMITED

Lists over 1100 interaction combinations by brand and generic name. The user can easily add new interactions and indicate their severity. Written instructions and program listing are provided.

System Requirements:
TRS-80 Models II with 64K and one disk drive, or Model III with 32K and one disk drive

Publisher:
Mr. Richard Harkness
1224 King Henry Drive
Ocean Springs, MS 39564

Price Information:
Disk $55.00

TITLE: DRUG INTERACTIONS/PATIENT DRUG PROFILES

For use by physicians and pharmacists. A data base of over 800 interactions. Interactions are reported by type and severity. Patient drug profiles are also stored on disk for rapid reference.

System Requirements:
TRS-80 Model I, Level 2 with 48K and two disk drives

Publisher:
Medsoft
P.O. Box 7049
Mark Spohr, M.D.
Tahoe City, CA 95730

Price Information:
Disk $450.00

TITLE: DRUG OVERDOSE

Tests laboratory data, therapy, and ventilation therapy using a clinical simulation.

System Requirements:
IBM PC

Publisher:
Cybermedics, Inc.
P.O. Box 3468
Boulder, CO 80307

Price Information:
$200.00

TITLE: DRUG WATCHER-INTERACTIONS AND INFORMATION

Drug education system.

System Requirements:
Apple II series, TRS-80, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
Contact publisher for price information.

HEALTH SERVICES

TITLE: DRUGS

Describes the active ingredients/contents, methods of use, preparations, short-term effects, long-term effects, prevalence of use, and legal status of various drugs. Drugs reviewed include cocaine, cannabis, minor tranquilizers.

System Requirements:
Apple II series, IBM PC

Publisher:
Intellectual Software
798 North Avenue
Bridgeport, CT 06606

Price Information:
$49.95

TITLE: FITNESS PROFILE

Fitness library system.

System Requirements:
Apple II series, TRS-80, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
Contact publisher for price information.

TITLE: HEALTH CHECK

Library screening system.

System Requirements:
Apple II series, TRS-80, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
$200.00

HEALTH SERVICES

TITLE: HEALTH PRACTICES ANALYSIS

A comprehensive health analysis which gives the user information on personal health practices, existing health hazards and cancer warning signs. This program will calculate life expectancy and show how health practices affect longevity. Two versions are available: a personal version for individuals, and a professional version which includes modules dealing with stress.

System Requirements:
IBM PC

Publisher:
Medmicro
Box 9615
Madison, WI 53715

Price Information:
$59.50 personal version, $259.00 professional version

TITLE: HEALTH STYLE

Health awareness library system.

System Requirements:
Apple II series, TRS-80, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
$150.00

TITLE: HEALTHDISK

A multi-program, interactive, format-programmable system. Includes computerized aerobatics, running, swimming, and weight-training. Records calories, prepares reports, tables and graphs.

System Requirements:
TRS-80 Model III with 16K and one disk drive

Publisher:
Mr. Field Shep, Jr.
910 Tyrell Street
Raleigh, NC 27609

Price Information:
Disk $25.00

HEALTH SERVICES

TITLE: HEALTHWIZE

Health screening library system.

System Requirements:
Apple II series, TRS-80, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
$1,000.00

TITLE: HIGH BLOOD PRESSURE

Describes the disease of high blood pressure, its treatment, causes and effects.

System Requirements:
IBM PC

Publisher:
Intellectual Software
798 North Avenue
Bridgeport, CT 06606

Price Information:
$34.95

TITLE: MEDIC/CLINIC RESEARCH

For medical clinical research. A general purpose data base management system with sophisticated statistics and graphs. Contains simple commands, prompts, and menus. User designed custom format or standard format by default.

System Requirements:
TRS-80 Model III with 64K and one disk drive

Publisher:
MDP Software-Clinistat (RS)
P.O. Box 360
Great Neck, NY 11022

Price Information:
Contact publisher for price information.

HEALTH SERVICES

TITLE: MEDICAL APPOINTMENT SYSTEM

Electronic appointment book keeps track of appointments for nearly 10,000 patients. For clinics with up to eight doctors per clinic.

System Requirements:
TRS-80 Model III with 64K and one disk drive;
Requires COBOL runtime disk.

ublisher:
Mr. Scott Jones
3908 Stoney Ridge Trail
Charlotte, NC 28210

Price Information:
Disk $500.00

TITLE: MEDICAL HISTORY

Collects a complete medical history from patients' answers to questions displayed on screen. Branches to more detailed questions as required. Produces a printed report and disk file.

System Requirements:
TRS-80 Model I, Level 2 with 48K and one disk drive

Publisher:
Medsoft
Mark Spohr, M.D.
P.O. Box 7049
Tahoe City, CA 95730

Price Information:
Disk $75.00

TITLE: MEDICAL RECALL SYSTEM

Stores and retrieves appointments by the month they are due. Prints address labels on post cards with message on reverse side. Will hold approximately 750 names on one disk.

System Requirements:
TRS-80 Model III with 32K, two disk drives, and a printer

Publisher:
Professional Office System
P.O. Box 143
Haddon Hts, NJ 08035

Price Information:
Disk $75.00

HEALTH SERVICES

TITLE: NUTRI-CALC

Dietary nutritional anaiysis. Will calculate the total calorie/nutrient intake and percent of RDA household units for over 700 foods with 18 nutrients. Stores standard menus and provides printouts for records and research.

System Requirements:
TRS-80 Model II with 64K and one disk drive

Publisher:
PCD Systems, Inc.
P.O. Box 143
Penn Yan, NY 14527

Price Information:
Disk $350.00

TITLE: NUTRI-CALC DIETARY NUTRITIONAL ANALYSIS

Designed for accurate assessment of an individual's intake. Eliminates the tedium of planning new menus or special diets for selected nutritional problem cases.

System Requirements:
DEC Professional 350 and 325

Publisher:
PCD Systems, Inc.
P.O. Box 143
Penn Yan, NY 14527

Price Information:
Contact the publisher for price information.

TITLE: NUTRITION PROFILE

Health awareness library.

System Requirements:
TRS-80, Apple II series, IBM PC, and others

Publisher:
Medical Software Consortium
Braxton H. Degarmo, M.D.
502 Springmont Drive
Hopkinsville, KY 42240

Price Information:
Contact publisher for price information.

TITLE: PHARMACOLOGICAL CALCULATIONS/RESEARCH

Thirty-three procedures for drug testing. Drug agonists, antagonists, biochemical and pharmacokinetic principles, statistical analysis with handbook.

System Requirements:
TRS-80 Model I, Level 2, with 16K, or Model III
with 16K and one disk drive

Publisher:
Life Science Associates
1 Fenmore Road
Bay Port, NY 11705

Price Information:
Cassettte or disk, $177.00

TITLE: PHYSICIAN'S DESKTOP SYSTEM

Medical records program which handles unlimited visits, medications, problem lists. Quick entry codes for medications, problems, and physical examination findings. Ten layer deep search of codes and identification data.

System Requirements:
TRS 80 Model I, Level 2 with 48K and two disk drives

Publisher:
Medical Data Services
16766 Bernardo Center Drive
STE 111A
San Diego, CA 92128

Price Information:
Cassette or disk, $495.00

TITLE: POSITIVE LIFESTYLING

Covers various aspects of well being including: exercise, nutrition, stress management, and chemical dependency control. Assists the user to set goals for eleven factors including weight control. An entire family can track its progress for up to four years.

System Requirements:
IBM PC and compatibles

Publisher:
Softworld, Inc.
9550 Black Mountain Road, Suite G
San Diego, CA 92126

Price Information:
$7.00 for the demonstration disk,
$145.00 for the program. Add $5.00 for shipping and handling.

HEALTH SERVICES

TITLE: PREGNANCY PACKAGE

Includes information about pregnancy and prenatal baby care. Explains the effects of: infectious disease, smoking, alcohol, X-rays, caffeine, drugs, rest, sex, exercise, and partner support. Describes common problems of pregnancy.

System Requirements:
Apple II series, IBM PC

Publisher:
Intellectual Software
798 North Avenue
Bridgeport, CT 06606

Price Information:
$59.95

TITLE: QUIT SMOKING

A doctor's program to end the smoking habit.

System Requirements:
Commodore 64, one disk drive

Publisher:
Crown Computer and Software
Trainers Corner Shopping Center
Rts. 309 & 663
Quakertown, PA 18951

Price Information:
$39.95

TITLE: STRESS ASSESS

Designed to enhance the individual's knowledge about stress. Evaluates current stress sources, distress symptoms and lifestyle behaviors. Based on a personalized assessment. The user learns healthy and effective strategies to balance the stress in his or her life.

System Requirements:
IBM PC with 64K and a printer

Publisher:
The Institute for Lifestyle Improvement
Delzell Hall
University of Wisconsin - Stevens Point
Stevens Point, WI 54481

Price Information:
Contact publisher for price information.

HEALTH SERVICES

TITLE: THE INTERNIST

Runs differential diagnoses on any combination of 480 symptoms for 331 diseases. Lists the symptoms associated with a given disease. Prints and displays diagnoses in rank order.

System Requirements:
IBM PC with 64K or 128K RAM (different versions)

Publisher:
N-Squared Computing
5318 Forest Ridge Road
Silverton, OR 97381

Price Information:
$95.00

TITLE: THE NUTRITIONIST

A nutrition and dietetics system.

System Requirements:
Apple II series, IBM PC

Publisher:
N-Squared Computing
5318 Forest Ridge Road
Silverton, OR 97381

Price Information:
Contact publisher for price information.

STATISTICAL PROGRAMS

TITLE: A-STAT 79

Statistics package system.

System Requirements:
Apple II series, CP/M

Publisher:
Rosen Grandonn Associates
Dr. Gary M. Grandon
7807 Whittier Street
Tampa, FL 33617

Price Information:
Contact publisher for price information.

TITLE: ADR-STATS

A screen-oriented, menu-driven data analysis and forecasting system that permits non-technical users to access a wide variety of statistical techniques.

System Requirements:
DEC Professional 325 or 350

Publisher:
Applied Data Research
Applications Product Division
Route 206 CN-8
Princeton, NJ 08540

Price Information:
Contact publisher for price information.

TITLE: ADVANCED STATISTICAL ANALYSIS

A statistical package with modules on file management, time series analysis, multiple regression, analysis of variance, chi square, descriptive statistics, histographs, linear regression, t-tests, and frequency distributions.

System Requirements:
TRS-80

Publisher:
Radio Shack
700 One Tandy Center
Fort Worth, TX 76102

Price Information:
Contact publisher for price information.

TITLE: ANALYSIS OF COVARIANCE

Permits up to five factors with as many as ten levels (or groups per factor) and 0-20 covariates. An unlimited number of observations is allowed. All two-way interactions are evaluated.

System Requirements:
Apple II series, TRS-80, IBM PC with 48K and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$105.00

TITLE: ANALYSIS OF VARIANCE

Allows for up to five factors with up to 10 levels per factor for any combination of between and/or within factors. All interactions (up to a five-way) are evaluated. Up to 50,000 cases are permitted. Easy review and modification.

System Requirements:
Apple II series, TRS-80, IBM PC, with 48K and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$115.00

STATISTICAL PROGRAMS

TITLE: ANALYSIS OF VARIANCE (ANOVA)

Four programs in one: a one-way ANOVA, a two-way ANOVA, the "N Way" ANOVA (for up to five factors), and Yates Analysis, which computes the mean square and half effect for two-level factorial and fractional experiments.

System Requirements:
Altos, Apple II series, Atari 400/800, Zenith Z-89 and Z-100, IBM PC, Kaypro II, NEC PC 8000, North Star, Osborne, TRS-80 Models I, II, III, and more.

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $39.95, Disk $43.95, CP/M disk $46.45

TITLE: ANALYSIS OF VARIANCE (BETWEEN DESIGN)

A complete analysis of variance for up to ten factors and up to ten levels per factor, with equal cell frequencies. The system allows for an unlimited number of observations and is self-prompting.

System Requirements:
Apple II series, TRS-80, IBM PC with 48K and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$85.00

TITLE: BASIC STATISTICS

Regression, ANOVA, t-tests, Mann-Whitney, U statistic and more.

System Requirements:
Apple II series

Publisher:
Robert Hale, Ph.D.
1855 North Oak Lane
State College, PA 16801

Price Information:
Contact publisher for price information.

93

STATISTICAL PROGRAMS

TITLE: BASIC STATISTICS SUBROUTINES VOLUME I

A collection of non-parametric statistics routines based on Sidney Siegal's popular text "Non-Parametric Statistics for the Behavioral Sciences."

System Requirements:
Altos, Apple II series, Atari 400/800, Zenith Z-89 and Z-100, IBM PC, Kaypro II, NEC PC 8000, Osborne, TRS-80 Models I, II, III, and others

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Disk $99.95

TITLE: CRUNCH INTERACTIVE STATISICAL PACKAGE (CRISP)

Utilities for data management in an interactive menu environment.

System Requirements:
IBM PC

Publisher:
Crunch Software
2547 22nd Avenue
San Francisco, CA 94116

Price Information:
$495.00; evaluation copy $50.00

TITLE: DISCRIMINANT FACTOR

Allows for up to 100 variables. The output includes: discriminant function coefficients, variance of discriminant function, cutoff point and Z-score cutoff point, and F-Ratio.

System Requirements:
Apple, TRS-80, IBM PC with 48K and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$70.00

STATISTICAL PROGRAMS

TITLE: FACTOR ANALYSIS

Includes principle components, varimax and oblique simple structures, for up to 60 variables and 40 factors. Permits raw data or correlation entry.

System Requirements:
Apple II series, TRS-80, IBM PC with 48K
and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$95.00

TITLE: HSD ANOVA II

A complete analysis of variance package. Includes analysis of covariance, repeated measures designs, split plot designs, one to five factors and two to 12 levels per factor.

System Requirements:
Apple II series with 48K and one or two disk drives

Publisher:
Human Systems Dynamics
9010 Reseda Boulevard, Suite 222
Northridge, CA 91324

Price Information:
$150.00

TITLE: HSD STATS

A complete general statistics program.

System Requirements:
Apple II series with two disk drives

Publisher:
Human Systems Dynamics
9010 Reseda Boulevard, Suite 222
Northridge, CA 91324

Price Information:
$50.00

STATISTICAL PROGRAMS

TITLE: ICARUS

An interactive regression program oriented toward large survey files.

System Requirements:
DEC 10

Publisher:
Mimi Schade
Social Science Computation Center
Brookings Institute
1775 Massachusetts Avenue, NW
Washington, DC 20036

Price Information:
$100.00

TITLE: MATRIX MANIPULATION

Consists of two programs which provide for full matrix operations for up to a 40 row and/or column matrix. It allows the user to add, subtract, multiply, multiply by a scalar, transpose and invert a matrix, or chain any of these combinations indefinitely.

System Requirements:
Apple II series, TRS-80, IBM PC with 48K and one or two disk drives; printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$45.00

STATISTICAL PROGRAMS

TITLE: MDC STAT

Statistical analysis. Computes F and T values, confidence intervals; t-test (paired or regular); linear and multiple regression, with analysis of residuals; non-linear and polynomial least square fitting. Powerful data base editor and transformation.

System Requirements:
Apple II series, IBM PC or compatibles, CP/M.

Publisher:
Micro Data Collection, Inc.
Dr. Hondeghem
P.O. Box 115
Novato, CA 94948

Price Information:
$49.95

TITLE: MULTILINEAR REGRESSION

A regression program capable of treating multi-variate situations with no limit other than computer memory on the number of dimensions. Program comes with a 16-page manual.

System Requirements:
Altos, Apple II series, Atari 400/800, Zenith Z-89 and Z-100, IBM PC, Kaypro II, NEC PC 8000, North Star, Osborne, TRS-80 Models I, II, III, and more

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $24.95, Disk $28.95, 8" CPM/M Disk $31.45

TITLE: MULTIPLE FACTOR ANALYSIS

Statistical programs for factor analysis.

System Requirements:
Apple II series, IBM PC with 64K, DOS 1.1

Publisher:
Mathmatical Software Co.
P.O. Box 12349
Elcajon, CA 92022

Price Information:
Contact publisher for price information.

TITLE: MULTIPLE REGRESSION

Permits the analysis of up to 100 variables. Any of up to 100 stored variables can be designated as a dependent variable. No limit to the number of cases or observations. A complete residual analysis including predicted value, actual dependent value, and residual of each observation is provided.

System Requirements:
Apple II series with 48K and one or two disk drives;
printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$60.00

TITLE: NUMBERKRUNCHER I & II

Each of the Numberkruncher Series programs is a series of programs. Numberkruncher I includes multiple linear correlation and regression with provisions for printing variance/covariance matrix. Numberkruncher II has the capability of computing summary statistics, auto and partial correlatons and others.

System Requirements:
TRS-80 Models I, II, III

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $69.95, Disk $73.95

STATISTICAL PROGRAMS

TITLE: PC STATISTICIAN

Analyzes experimental or survey data immediately. Includes research data base search and select on one to four variables, cross-tabulation on one to five variables, descriptive statistics, frequency distribution, t-tests, One Way ANOVA, non-parametrics, correlations, curvefitting, multiple regression, contingency tables, data transformations, and graphics.

System Requirements:
IBM PC, PC DOS with 128K, and two DSDD disk drives

Publisher:
Human Systems Dynamics
9010 Reseda Boulevard, Suite 222/Dept. A
Northridge, CA 91324

Price Information:
$300.00

TITLE: REGRESSION I

A complete and coordinated regression curve fitting package for the analysis of linear and non-linear, one-dimensional data. A 12-page manual accompanies the software.

System Requirements:
Altos, Apple II series, Atari 400/800, Canon AS-100,
Zenith Z-89, IBM PC, Kaypro II, North Star, NEC PC 8000,
TRS-80 Models I, II, III, and others

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $19.95, Disk $23.95, 8" CP/M Disk $26.45

STATISTICAL PROGRAMS

TITLE: REGRESSION II (PARAFIT)

A parametric least squares regression program designed specifically for the determination of the non-linear coefficients in complicated mathematical expressions.

System Requirements:

Altos, Apple II series, Atari 400/800, Canon AS-100, Zenith Z-89, IBM PC, Kaypro II, NEC PC 8000, North Star, Osborne, TRS-80 Models I, II, III, and others

Publisher:

Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:

Cassette $19.95, Disk $23.95, 8" CP/M Disk $26.45

TITLE: SPSS/PC STATISTICS

A microcomputer version of SPSS-X, a popular statistical package with mainframe computers. Provides univariate statistics, cross tabulations, correlations, multiple regression, non-parametric tests, log linear and contour, and scatter plot procedures. Handles up to 150 variables.

System Requirements:

IBM PC, with 320K of RAM, hard disk, 8087 Coprocessor, and PC DOS required. Also available for DEC Professional computers.

Publisher:

SPSS Inc.
Marketing Department
444 North Michigan Avenue, Suite 3000
Chicago, IL 60611

Price Information:

$795.00

STATISTICAL PROGRAMS

TITLE: STAT-SYSTEMS

Series of seven statistical packages for statistical analysis. Allows for analysis of variance, analysis of covariance, factor analysis, discriminant function, multiple regression, and a matrix manipulation.

System Requirements:
Apple II series, TRS-80, IBM PC with 48K

Publisher:
PAR, Inc.
Order Department
17408 Gunn Highway
P.O. Box 98
Odessa, FL 33556

Price Information:
$295.00, seven packages

TITLE: STATISTICAL ANALYSIS PACKAGE

A professional statistical analysis package similar to the popular SPSS (Statistics Package for the Social Sciences).

System Requirements:
TRS-80 Model I, Level 2 with 48K and two disk drives

Publisher:
Walonik Associates, Inc.
5624 Girard Avenue, South
Minneapolis, MN 55419

Price Information:
Disk or cassette $285.00

TITLE: STATPAK

Includes frequency analysis, descriptive statistics, cross tab and chi-square, correlation and linear regression, t-test, analysis of variance, and multiple regression.

System Requirements:
IBM PC, and others

Publisher:
Walonick Associates, Inc.
5624 Girard Avenue, South
Minneapolis, MN 55419

Price Information:
Contact publisher for price information.

STATISTICAL PROGRAMS

TITLE: STATSORT

A utility program for use in conjunction with data bases. Data may be sorted, manipulated, and analyzed by means of basic descriptive statistics.

System Requirements:
TRS-80 Models I, III, or IV with 16K

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $39.95, disk $43.95

TITLE: STATTEST

Performs statistical tests of hypotheses and includes t-tests, chi-square, and F-ratios as well as simple regression and random number generation.

System Requirements:
Altos, Apple II series, Atari 400/800, Zenith Z-89 and Z-100, IBM PC, Kaypro II, NEC PC 8000, North Star, Osborne, TRS-80 Model I, II, III, and others

Publisher:
Dynacomp, Inc.
1427 Monroe Avenue
Rochester, NY 14618
(716) 442-8731

Price Information:
Cassette $29.95, Disk $33.95, 8" CP/M $36.45

TITLE: STEPWISE MULTIPLE REGRESSION

For up to 61 variables. Output (addition or deletion of a variable). Includes regression coefficients, regression, residuals tables, multiple correlation, standard error, F-ratio, and more.

System Requirements:
TRS-80, IBM PC with 48K and one or two disk drives;
printer optional

Publisher:
Parsoftware
Robert Belanger, Ph.D.
P.O. Box 98
Odessa, FL 33556

Price Information:
$120.00

TITLE: BILLBOARD

A bulletin board for attention getting store window displays. The message scrolls across the screen in inch-high letters. Scroll rate is aajustable.

System Requirements:
8032 or 4016 Commodore Pet

Publisher:
Micro Software Systems
P.O. Box 1442A
Woodbridge, VA 22193

Price Information:
$40.00

TITLE: BURSAR

Student activity fund accounting system, including journal, statements, and trial balance reporting. Uses 80-column parallel printer.

System Requirements:
TRS-80 Model I, Level 2 with 32K and one disk drive,
BASIC

Publisher:
Addison-Wesley Publishing Co., Inc.
3 Jacob Way
Reading, MA 01867

Price Information:
Disk $195.00, manual $10.00

TITLE: CLUB ACCOUNTING SYSTEM

An accounting system for class, club, and student body funds. A user-defined account structure handles up to ten digits.

System Requirements:
IBM PC, CP/M

Publisher:
School Management Systems (SMS)
2226 Main Street
Sweet Home, OR 97386

Price Information:
$495.00

TITLE: CLUB-PAK

Complete operations management system. Manages membership data and club facilities, while marketing the club and its advantages. Complete security system, with operations log and individual passwords.
